

A guided intake interview for the caregiver, family, or client

Use this worksheet during your intake interview to gather the details XpressAblePro uses to build a personalized response profile. It mirrors the same fields you'll enter into the app profile screen, so once the interview is done, setup takes minutes.

1 Client / Profile Basics

Name (as they'd like to be addressed)

Age

Preferred language for XpressAblePro

Circle one or write in — 17 supported (see list on back)

Communication style

e.g., short phrases, full sentences, single words, emerging verbal

Primary device / headphones used

e.g., iPhone + bone-conduction headphones

Referring therapist / clinician

2 Getting to Know Them

Interests and favorite things

Topics, characters, activities, subjects that light them up

Special skills or strengths

Things they're proud of or do well

Topics or subjects to avoid

Anything that causes distress or should stay off-limits

People and relationships to know

Family members, pets, close friends, teachers — names AI responses may reference

3 Everyday Situations

Where do they need the most support responding?

Mealtimes, classroom, playdates, appointments, phone calls, etc.

Common questions they're asked

Write a few real examples caregivers hear often

Custom trigger words (Auto mode)

Words or their name that should start listening automatically

4

Therapy Goals This Should Reinforce

Current goals from the treatment plan

So AI responses reinforce, not contradict, active therapy targets

Response tone / framing to encourage

e.g., first-person "I" statements, requesting help, initiating greetings

Anything the AI should never suggest saying

5

Consent & Logistics

Caregiver name

Best contact (email or phone)

Interview date

Interviewed by

Caregiver consent to create a profile using the details above

Signature / initials

XpressAblePro supports 17 languages

English • Spanish • Portuguese • French • German • Hindi • Bengali • Urdu • Arabic • Gujarati • Tamil • Telugu • Malayalam • Kannada • Japanese • Korean • Chinese

This worksheet is for use by speech-language pathologists and therapists during caregiver intake. Information gathered here should be entered into the client's profile inside XpressAblePro. Questions? malliksanjibk@gmail.com · xpressable.app/for-therapists.html
